

INDIVIDUAL SCHEME

A47 BROAD END ROAD

Option BER2 - An enlarged roundabout to replace the existing staggered junction

WHY THIS SCHEME IS PART OF THE WISBECH ACCESS STRATEGY?

- The Fenland Local Plan work identified this location as needing improvement to deliver housing growth on the East side of Wisbech
- Safety concerns with the current junction layout

BENEFITS OF THE SCHEME

- Roundabout would improve access of all approaches
- Eliminates the need for vehicles to cross the road when turning onto the A47
- Traffic calming effect in reducing vehicle speeds and accidents as they approach the roundabout
- The roundabout has been designed to consider the high level of HGVs travelling on the A47
