WISBECH ACCESS STRATEGY BUSINESS CASE

Purpose of the Business Case

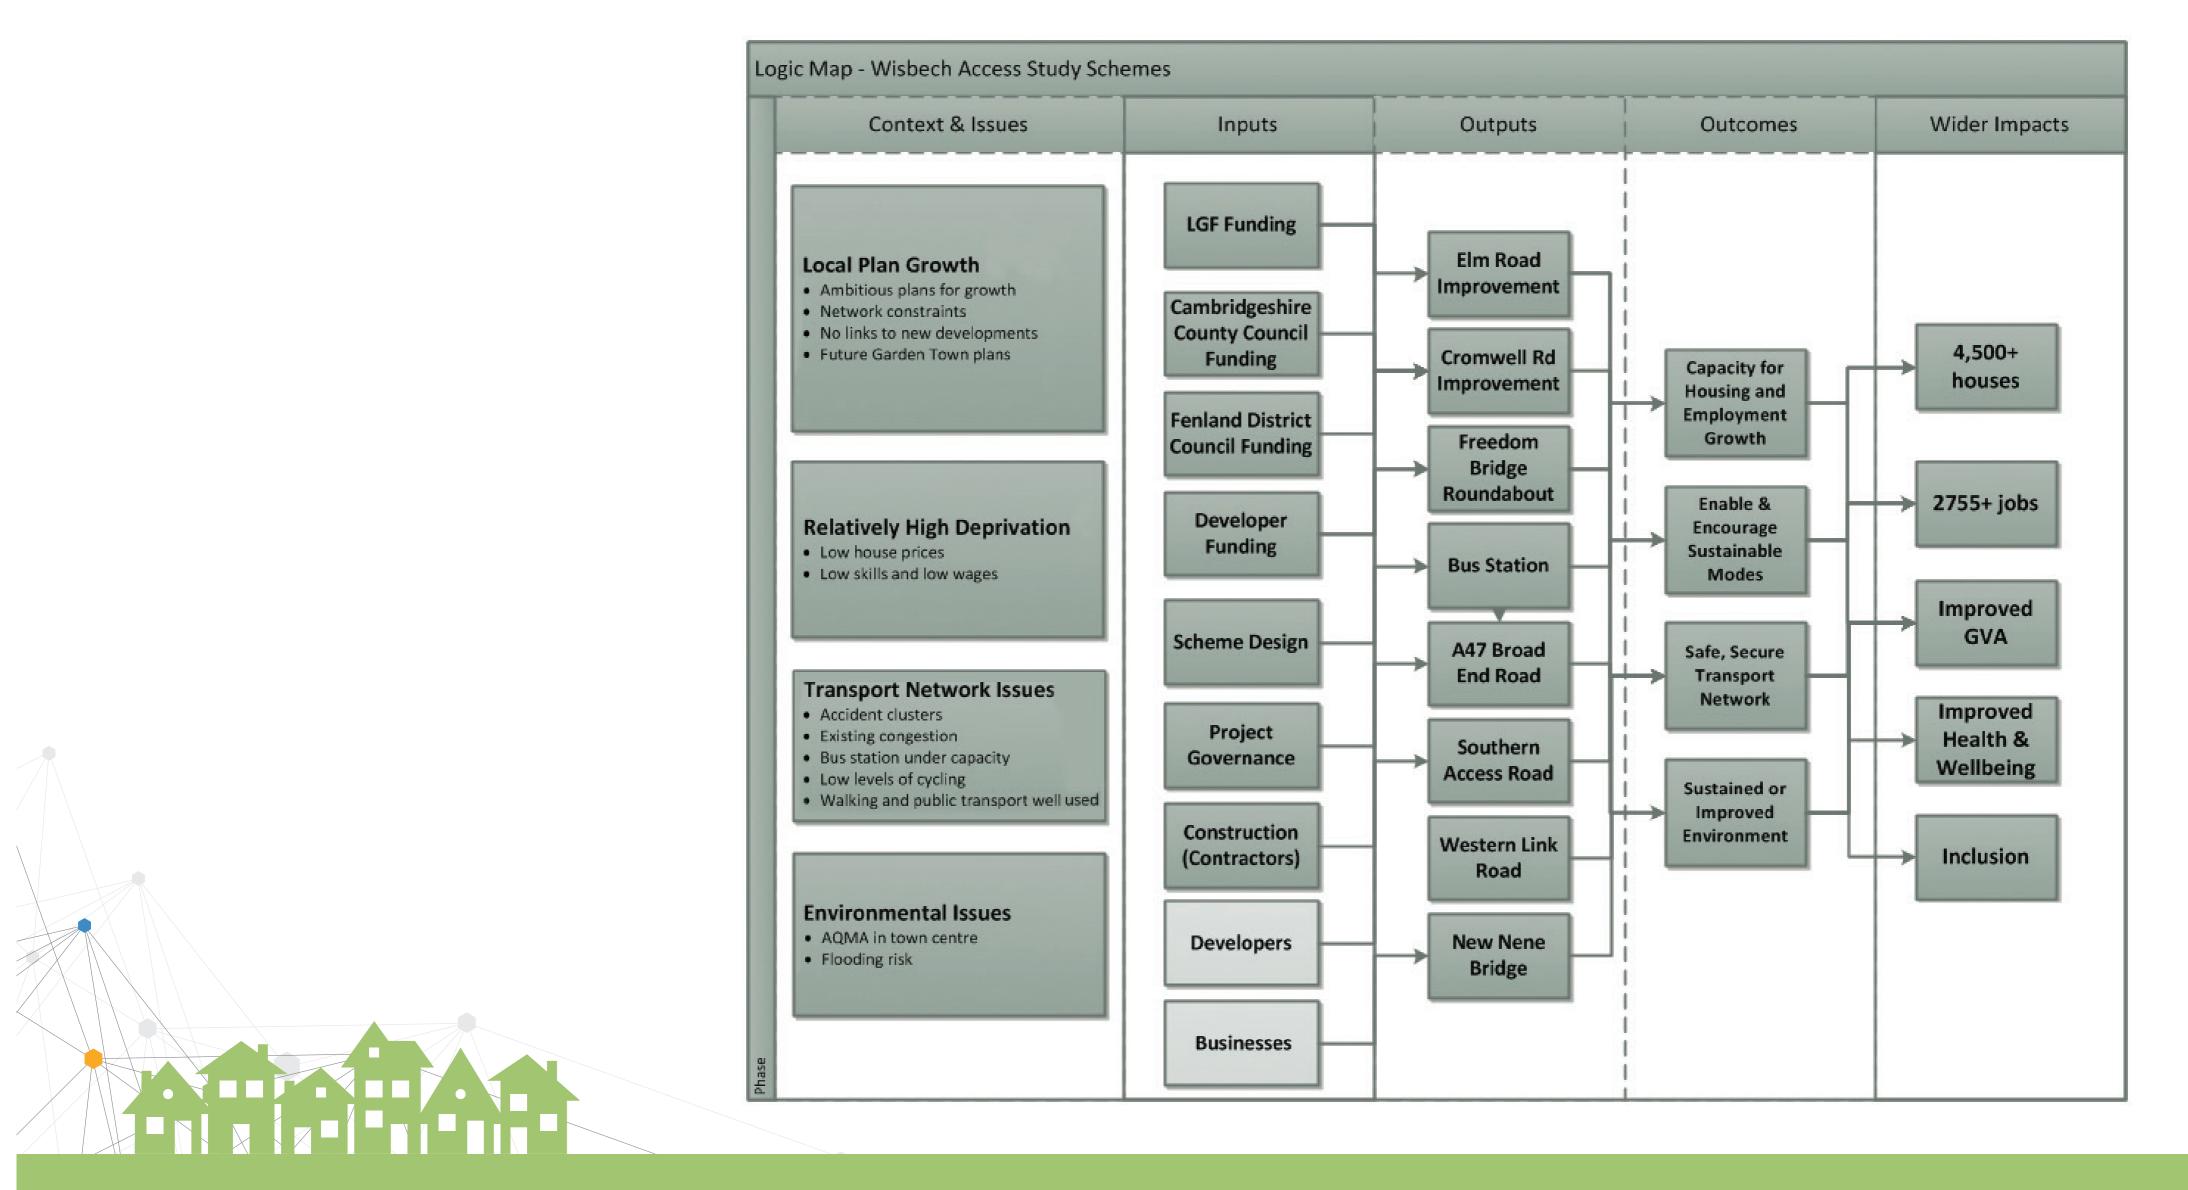

The overall purpose of the Business Case is to ensure value for money from public funds.

In line with Government processes, set out in the Green Book by the Treasury, the business case work includes an assessment in the following areas:

Framework for the Business Case

An overall framework approach has been developed for this business case. The framework is set out below in a logic map. The purpose of the framework is to set the schemes in the context of what the Wisbech Access Strategy is trying to achieve. This is necessary because the business case will need to consider all relevant information.
