

As part of the council's ongoing Covid 19 community support action plan the Private Sector Housing Team would like to offer additional guidance to landlords/agents in supporting their tenants to minimise the risk of contamination as they go about their daily activities; both in and outside their homes. Guidance leaflets have been translated into some common languages and we encourage you to print and provide the appropriate leaflet to your existing and new tenants, at the earliest opportunity, or to direct your tenants to the council website at the link below:

<https://www.fenland.gov.uk/HMO>

The council wants to reassure local landlords that the council is doing everything it can to guide and support local residents and encourage them to follow the most up to date government guidance in order to protect our community from an increase in infection rates.

As you know, we appreciate your feedback and invite your comments on how we may be able to assist you and your tenants further in supporting you through this difficult time. Please forward any comments you may have to: privatesectorhousing@fenland.gov.uk You will receive a response within 5 working days, and where possible, we will endeavour to act upon your comments.

Thank you

Private Sector Housing Team
